

CS6W50 Career Development Learning (CDL) Form

Student

Student London met ID: 23057066

Student Name: Ujjwal Basnet

College E-mail ID: ujjwal.basnet.s24@icp.edu.np

Mobile No: 9846906559

Student's work/placement address: Pokhara 11– Fulbari

Employer

Employer Name : Codse

Employer's Address including department: Pokhara 11– Fulbari

Company Supervisor's Name and Position: Hari Lamichhane (CEO)

Company Supervisor's Tel No: 9846550035

Company Supervisor's email address: hari@codse.com.np

Work Related Learning Activity

Start Date: 2026/02/25

End Date (if known): 2026/05/06

Your role at the placement (position): FullStack Developer

Brief description of your work at the placement:

As a Full Stack Developer Intern, I will be responsible for developing and maintaining both the frontend and backend of web applications. My role will include building responsive user interfaces, developing server-side

logic, and integrating databases to ensure smooth and efficient system functionality. I will work with technologies such as MongoDB, Express.js, React, and Node.js (MERN stack) to develop scalable and reliable applications. Additionally, I will collaborate closely with UI/UX designers, other developers, and the Codse team to implement new features, fix bugs, and improve application performance. I will also participate in client meetings, contribute to technical discussions, and ensure that the final product meets user requirements and industry best practices.

Proposed learning outcomes from the Career Development Learning Activity:

Learning Outcome ID	Learning Outcomes	Activities and Tasks	Evidence
LO1	Frontend Development (React)	• Creating responsive user interfaces using React. • Building reusable components. • Managing state using React Hooks. • Styling pages using CSS or frameworks like Bootstrap or Tailwind.	• Screenshots of React pages developed. • GitHub repository link. • Link to working website.
LO2	Backend Development (Node.js & Express)	• Creating RESTful APIs using Node.js and Express. • Handling server-side logic. • Managing routes and middleware. • Connecting frontend with backend.	• Screenshots of API testing using Postman. • Backend project repository on GitHub. • Demonstration of API responses.
LO3	Database Management (MongoDB)	• Designing database schema using MongoDB. • Performing CRUD operations. • Connecting MongoDB with backend using Mongoose. • Managing application data effectively.	• MongoDB Atlas dashboard screenshots. • Database schema screenshots. • Example stored data records.

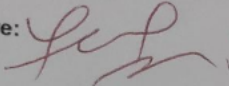

LO4	Authentication and Security	• Implementing user login and registration system. • Using JWT authentication. • Encrypting passwords using bcrypt. • Protecting private routes.	• Screenshots of login and registration pages. • Code snippets showing authentication logic. • Demonstration of protected routes.
LO5	Improve Communication Skills	• Share my ideas with the team or client. • Listen to others to understand their thoughts and feedback.	• Photo during presentations. • Photo while meeting with the client.
LO6	Real-Time Communication	• Implementing real-time messaging using Socket.io. • Creating private and group chat functionality. • Showing online/offline user status.	• Screenshots of chat interface. • Demo of real-time messaging. • GitHub repository link.
LO7	Teamwork & Collaboration	• I work well with others. • I share ideas openly. • I help the team achieve goals.	• I work well with others. • Jira/Trello dashboard screenshots.
LO8	Problem Solving and Debugging	• Identifying bugs in frontend and backend.	• Before and after screenshots of bug fixes.

		• Debugging server errors and API issues. • Improving performance of the application.	• Error logs and solutions. • Feedback from mentor or team members.
LO9	Learning time Management	• Managing tasks effectively. • Track progress and finishing timely.	• Task tracking using Jira Web. • Tracking project milestones. • Feedback from mentor or team.
LO10	Independent Learning and Skill Development	• Learning new MERN tools and libraries. • Exploring advanced React features. • Studying documentation and tutorials.	• Notes from learning resources. • Practice projects. • Certificates or proof of completed courses.
